

Francisco Teixeira

Postdoctoral Researcher

Email | Github | LinkedIn | Scholar

Postdoctoral researcher working on deep learning systems for speech processing. My main expertise spans privacy-preserving machine learning for speech processing – including voice conversion and anonymization, membership inference, machine unlearning and cryptographic processing – speech recognition, speaker recognition and speaker diarization. Recently co-developed CAMÕES, an evaluation benchmark and set of state-of-the-art open-source ASR models for European Portuguese, and led the collection of FaLAR, a 5,000-hour speaker-annotated speech corpus (available on HuggingFace). I have also recently participated in the development of SVeritas, a robustness benchmark for automatic speaker verification. I am currently the Principal Investigator of the LeaF project (CMU-Portugal), focused on machine unlearning in speech foundation models. I have a PhD from INESC-ID/Instituto Superior Técnico, University of Lisbon, Portugal, obtained in 2024, with a visiting research period at the Language Technologies Institute at Carnegie Mellon University.

Current Activities

- Postdoctoral Researcher at the Human Language Technologies (HLT) Lab under the *ACCELERAT.AI* (PRR) project at INESC-ID, Lisbon, Portugal (2024–present).
- Principal Investigator of the *LeaF* exploratory research project on machine unlearning in speech foundation models (2025–present).

Technical Skills

■ Deep Learning & Speech Processing

- PyTorch, HuggingFace Transformers, ESPnet, SpeechBrain, Pyannote, Kaldi;
- Experience with speech foundation models: Whisper, wav2vec 2.0, HuBERT, WavLM;
- Membership inference, adversarial robustness, machine unlearning.

■ Privacy-Preserving ML

- Speaker anonymization, voice conversion, information disentanglement.
- Homomorphic encryption (SEAL, OpenFHE), secure multi-party computation (ABY, MP-SPDZ);

■ Programming & General

- Python (primary), C++, Java, C, MATLAB;
- Basic: MySQL, HTML, PHP, JavaScript.

Languages: Fluency in English, B1-level Italian, basic understanding of Spanish and French.

Recent achievements

- Collection and curation of *FaLAR*, the first open-source large-scale European Portuguese Speech corpus, with over 5,000 hours of speaker-annotated data.
- Co-development of *CAMÕES*, the current state-of-the-art open-source model for European Portuguese ASR, and its corresponding evaluation benchmark.
- Participation in the development of the *SVeritas* benchmark for robust speaker verification.

Education & Research

■ Academic Qualifications

- 2019–2024** Doctoral Degree in Electrical and Computer Engineering
Instituto Superior Tecnico, University of Lisbon, Portugal
PhD Thesis: [Privacy-preserving Machine Learning in Remote Speech Processing](#)
Qualification: Pass with Distinction and Honour
- 2013–2018** Integrated Master's in Electrical and Computer Engineering
Instituto Superior Tecnico, University of Lisbon, Portugal
MSc Thesis: [Privacy in Paralinguistic Tasks](#)
- 2012–2013** 1st Year of Bachelor in Information Systems and Computer Engineering
Instituto Superior Tecnico, University of Lisbon, Portugal
- February – July 2017** Erasmus Program student
University of Siena, Siena, Italy

■ Research

- March – June 2022** Visiting Researcher
Language Technologies Institute, Carnegie Mellon University, Pittsburgh, USA
- October 2018 – February 2019** Research Intern
Human Language Technology (HLT) Lab, INESC-ID, Lisbon, Portugal

Selected publications

- 2026** Exploring the potential and limitations of Model Merging for Multi-Domain Adaptation in ASR
Carvalho, C., **Teixeira, F.**, Rolland, T. and Abad, A. – Accepted for publication in *Interspeech 2026*
- 2026** FaLAR: A Large-scale Speaker-Annotated European Portuguese Speech Corpus of Parliamentary Sessions
Teixeira, F., Carvalho, C., Julião, M., Botelho, C., Solera-Ureña, R., Paulo, S., Rolland, T., Peters, B., Trancoso, I. and Abad, A. – Published in *LREC 2026*
- 2025** CAMÕES: A Comprehensive Automatic Speech Recognition Benchmark for European Portuguese
Carvalho, C., **Teixeira, F.**, Botelho, C., Pompili, A., Solera-Ureña, R., Paulo, S., Julião, M., Rolland, T., Mendonca, J., Pereira, D., Trancoso, I., Abad, A. – Published in *ASRU 2025*
- 2025** SVeritas: Benchmark for Robust Speaker Verification under Diverse Conditions
Baali, M., Bisht, S., **Teixeira, F.**, Shapovalenko, K., Singh, R., Raj, B. – Published in *EMNLP Findings 2025*
- 2025** Children's Voice Privacy: First Steps And Emerging Challenges
Kulkarni, A., **Teixeira, F.**, Hermann, E., Rolland, T., Trancoso, I., Magimai.-Doss, M. – Published in *Interspeech 2025*
- 2025** Exploring Features for Membership Inference in ASR Model Auditing
Teixeira, F., Pizzi, K., Olivier, R., Abad, A., Raj, B., Trancoso, I. – Published in *Computer Speech & Language – Journal*
- 2024** Privacy-oriented Manipulation of Speaker Representations
Teixeira, F., Abad, A., Raj, B., Trancoso, I. – Published in *IEEE Access 2024*
- 2022** Towards End-to-End Private Automatic Speaker Recognition
Teixeira, F., Abad, A., Raj, B., Trancoso, I. – Published in *Interspeech 2022*

Projects

Machine Unlearning in Speech Foundation Models – Learning to Forget (LeaF)
Principal Investigator, CMU Portugal Exploratory Research Project, 2025/11 –

Privacy for Smart Speech Technology (PSST!)
Researcher, Horizon Europe Marie Skłodowska-Curie Action, 2025–

ACCELERAT.AI
Researcher, Portuguese Recovery and Resilience Plan (PRR), 2024–

Privacy in speaker diarization: secure detection of who spoke when (PrivaDia)
Researcher, CMU Portugal Exploratory Research Project, 2021/01–2022/06

Teaching

■ Courses

Foundations of Programming
Teaching Assistant, Instituto Superior Tecnico, University of Lisbon, 1st semester, 2025/2026

Speech Processing
Teaching Assistant, Instituto Superior Tecnico, University of Lisbon, 2nd semester, 2018/2019

■ Supervisions

Voice Anonymization for European Portuguese
MSc. thesis, 2025–(ongoing)

Multimodal Anonymization for European Portuguese
MSc. thesis, 2025–(ongoing)

Machine Unlearning against Jailbreak Attacks in Speech Language Models
MSc. thesis, 2025–(ongoing)

Talks

[POSTER] Privacy-preserving Machine Learning for Remote Speech Processing
IberSPEECH, November 2024

[ORAL] Improving Membership Inference in ASR Model Auditing with Perturbed Loss Features
Trustworthy Speech Processing Workshop – ICASSP, April 2024

[ORAL] Privacy-preserving Machine Learning for Speech
Invited Lecture, Natural Language Processing course, ISCTE, Lisbon, November 2023

[ORAL] Privacy-Preserving Automatic Speaker Diarization
ICASSP, June 2023

[POSTER] Privacy in Automatic Speaker Verification and Diarization
CMU-Portugal Summit, October 2022

[WEBINAR] Towards End-to-End Private Automatic Speaker Recognition
ISCA SIG-SPSC, 2022

[ORAL] Towards End-to-End Private Automatic Speaker Recognition
Interspeech, September 2022

[ORAL] FoolHD - Fooling speaker identification by Highly imperceptible adversarial Disturbances
ICASSP, June 2021

[WEBINAR] Privacy in Health Oriented Paralinguistic and Extralinguistic Tasks
ISCA SIG-SPSC, July 2020

[POSTER] Privacy-preserving Paralinguistic Tasks
ICASSP, May 2019

Other activities

- Workshop for Young Female Researchers in Speech Science & Technology – Program Committee member, 2021, 2022.
- Participant at Dagstuhl Seminar on Privacy in Speech and Language Technology, August 2022.
- Participant at the Lorentz Center Workshop on Speech as Personal Identifiable Information, November 2021.
- Monitor at the 11th Lisbon Machine Learning School (LxMLS), July 2021.
- ISCA-SAC's Board Advisor, 2023.
- ISCA-SAC's Event Coordinator, 2022.
- ISCA-SAC's Media Coordinator, 2021.
- ISCA-SAC Student volunteer at Interspeech, October 2020.
- ISCA-SAC's SpeechPitch podcast co-founder and co-host, 2021–2023.
- Participant at the 9th Lisbon Machine Learning School (LxMLS), July 2019.
- Volunteer co-organizer of the 3rd Annual MC Meeting of the enetCollect COST Action (CA16105), March 2019.
- Participant at the TAPAS TE2: Speech Processing and Machine Learning Workshop, February 2019.
- Team supervisor at GASTagus ONG (Tagus Group for Social Action) – 2016.
- Volunteer at GASTagus ONG (Tagus Group for Social Action) – 2015.

Reviewing

2026	Reviewer Interspeech
2026	Reviewer ICASSP
2025	Reviewer Disfluency in Spontaneous Speech (DiSS) Workshop
2025	Reviewer Computer Speech & Language – Journal
2025	Reviewer Interspeech
2024	Reviewer Proceedings IEEE – Journal
2023	Reviewer IEEE Transactions on Information Forensics & Security (T-IFS)
2023	Reviewer ACM International Conference on Multimodal Interaction (ICMI)
2020	Reviewer IEEE International Conference on Machine Learning and Applications (ICMLA)
2020	Secondary reviewer <i>Neural Networks</i> – Journal
